A meeting of the Committee on Seed lings, belonging to the Kentucky Pomological Society, was held on Saturday, the 21st of December, 1 ..., at the office of B. D. Kennedy, Esq., in the city of Lonisville, Dr. Arthur Peter in the chair. Several varieties of trust were placed before the Committee for examination—among them some very line specimens of the Vicar of Winkhield pear, grown by L. Young, Esq. This pear has many bad habits, such as bluthing and prematurely casting its leaves, so that its fruits are seldom eatable. These specimens, however, were cut and freely tested, and, by an unanimons vote, pronounced very good. One of the Committee, a high ex-official, said he was willing to give his certificate to the effect that "this was as good a pear as he hall ever lasted."

The Committee also had before them two seeding apples from J. S. Downer,

good. The Red Jewel is a small first resembling a good deal the small Romanite.

Mr. Bowner thinks the specimens exhibited were dwarfed by the drought of last
summer; if so, Red Jewel is slightly below
medinm in size, having the appearance of
a very long keeper. Its flesh is yellow
and rich, but too immature to determine
its texture. When ripe, the Committee
thought this an apple of much promise for
a late winner fruit.

Section 1. The dentist should ever be ready to respond to the wans of his patress, and should fully recognic the obligations involved in the discharge of his inties toward them. As they are, in most cases, unalle to correctly estimate the clausacter of his operations, his own sense of right must guarantee faithfalness in their perfermance. His manner should be first yet kind and sympathizing, so as goin the respect and confidence of his patients, and even to the simplest case committed to his care, should receive that attention which is due to operations perturned on living, sensitive tissue.

Section 2. It is not expected that the patient will possess a very extended, or a very accurate, knowledge of professional matters. The dentist should make due allowance for this, patiently explaining many things which may seem quite clear to himself, thus endeavoring to educate the public mind, so that it will properly appreciate the heurfeent efforts of our profession. He should encourage no false hopes by promising success, when in the neutre of the case there is uncertainty.

HE GALLATIN AND LEHANON TENN FRANCE — GEFGATES FROM SUMNES AND WASSEN COLNIES

Our realers are pretty thoroughly conversant with the Gallatin and Lepanon which delegations have visited our city on several occasions during the past year. On the 16th of the present month the Legislature of Tennessee granted a very l'seral charter for the construction of the proposed road from Gallatin, on the Louisville and Nashville railroad, to Lebanon, the county seat of Wilson county, distant some fifteen or sixteen miles. The chief provision in the charter is relative to the amount of stock requisite to an amount has been placed at fifty thousand dollars. Ot course there will be no sort the enterprise is properly encouraged in ther respects it must succeed.

The obsequies, as conducted by the Rector, Rev. W. H. Plact, were unusually solemn and pathetic. He adhered to the Eniscopal formula. After the prelimiry rites on the entry and deposit of he corpse, Mr. Platt read, in a very distint and musical voice, the lesson taken from he fifteenth chapter of the first epistle of St. Pau to the Corin hians. He then de livered a short but exceedingly beautiful oration, in which he dwelt upon the distinguished character of the deceased for probity, temperance, benevolence, and all those qualities which endear man to his fellows. Il-also made a touching allusion to the age of the deceased, referring to the fuct that he had outlived the allotted period, three-score and ten, and spoke of the many great enterprises in which Major Throckmorton had embarked his genius and capital and energy to the honor and success of our metropolis, and of the innumerable changes which had taken place in our city since the deceased first entered its streets as a busy agent. He drew an affecting parallel between the death of the young and the old, and in the most feeling terms addressed the aged friends of the departed who had gathered around his hier to pay a last sad tribute of respect and affecion. Mr. Platt said that he had comnuned and prayed with and baptised Major Throckmorton on his death-bed.

and expressed the belief that he passed away in the full hope of immortal life. At the close of the funeral discours Mr. Platt offcred up a fervent prayer for the dead, after which the plate was re moved from the coffin and the friends of the deceased invited to look upon his features for the last time. The annals of crime in this great city revent many enrious facts, explain some mysterious operations, and show in what danger the wisest and best-informed of citizens stand of being made the victims of traind and misplaced confidence. It is often wondered at thus people residing in the country, who are being continually warned of the perils they are likely to encounter on visiting the metropolis, do, after all, fail to take heed, and in some way succeed in being fleeced in the most amac-

lice to remove such girls by summary lance and were married, after which they returned to the Schell House and left again on the 4.30 Jeffersonvile train yesterday for Rockville, Indiana. At last accounts the irate old gentleman was still waiting and watching for them in the little city below the falls.

The Sub-committee of Ways and Means, after several sessions and interviews with the Secretary of the Treasnry, have arrived at the conclusion that the Tipe meter will aval nothing in the matter of preventing frauds in the manufacture of whisky

The Times's special says Gen. Swayne. commanding the District of Alabama, is also to be removed.

The Tribine's special says that about twelve months ago the Secretary of the Treasury issued a requisition presenting a change in the mode of destroying the mutilated national currency, requiring it to be converted into a mash or pulp for the manufacture of paper, instead of birning it as was the practice before that time. Under the new system the Government derives a revenue of some \$30 or MUTILATER CUEREN Y ment derives a revenue of some \$300 or \$400 per day, and it is now proposed to so amend the law regarding the national banks that the mutlated entrency may be disposed of in a similar manner, and the finance Committee have had the matter under consideration, and will report a bill early in the session recommending the necessary legislation. The bill will also provide for the appointment of an agent to superintend the work. HAVANA, Dec. 26.

The steamship Virginia, from Vera Cruz, which tonched at Sissal on the 231 inst., brings important news from that quarter. The revolution in Yucatan was assuming large proportions. Santa Anna had been proclaimed dictator by the revolutionists and was expected hourly to arrive from Havana with men and a milion of dollars. The President and town of Sissal were in the hands of the rebels, but the port was blockaded by two Mexican gunboats. A number of officers who formerly served under the Empire had arrived at Sissal from Matamoras. On the 16th an engagement took place between the Mexican gunboats and the batteries on shore. The coast of Yucatan in the vicinity of Sissal was diligently watched to prevent the landing of troops coming from any foreign country to aid the rebel-
